# Overview

- U.S. Coast Guard History
- Conditions of Entry Review
- Free Resources to help comply with ISPS

# Happy 228th Birthday USCG!!!

August 4, 1790: The Tariff Act authorizes the construction of 10 revenue cutters!

# USCG International Program Overview

Foreign Port Audits

Substantial Compliance with ISPS

Partnership, Engagement, Capacity Building

# Condition's of Entry (COE)

## Purpose

- Mitigate terrorism risk & secure global maritime trade
- Safeguard Maritime Transportation System & U.S. maritime interests

# Potential Impacts to Marine Industry

- Denial of entry to U.S. port
- Increased costs of doing business
- Resulting in increased cost of living (food, clothes, building materials, etc...)

# Examples of Port Security Issues

Where can I get help or ideas on how to increase port security???

## International Port Security Programs

### Port Security Advisory

- [Port Security Advisory 3-17, effective 20 December 2017](#)

### Best practices

- [Best Practices - General Information](#)

The United States Coast Guard, International Port Security Program (IPSP) has been collecting examples of maritime security best practices from facilities around the world. They are presented here so that facilities may learn from one another, align their security practices, and to encourage bilateral or multilateral discussions between nations. Special emphasis is placed on sharing low cost security practices or innovative applications that can have a significant impact on facility security. Selected best practices will be published and updated on this site on an ongoing basis. Photographs of best practices will be included whenever possible to best illustrate the practice.
